- Camera with 40cm cable to Female DC connector and RCA Female connector
- 1m DC power cable with Male DC connector
- 6m Male to Male RCA extension cable
- 21mm hole saw
- Instruction

INSTALLATION

1. Connect the Black wire to a suitable ground and the Red wire to a switched +12V supply.
2. If the camera is to be used in the rear of the vehicle, the Red wire should be connected to the reversing light circuit or an interface which provides a reverse signal.
3. Select a suitable location for the camera and ensure that the area is free from all cables, fuel & oil. Whenever possible, avoid locations that are subject to road dirt & water spray.
4. Aim to mount the camera preferably 45-60cm from the ground and cut a suitable hole using the cutting tool provided.
5. Using the supplied video cable, connect the camera to the display screen and ensure that the image is displayed correctly.
